Standard ERP

One application for all your business processes

Standard ERP is an enterprise resource planning system designed to manage businesses of all sizes in almost any industry. Account management, order processing, inventory, manufacturing and job costing are among the core components, but Standard ERP goes beyond conventional functionality. Choose from a variety of comprehensive, industry-specific modules fully integrated with all other related system functionalities.

Standard ERP is perfect for most companies, from small first-time users to large companies needing an integrated solution for all their business requirements - it's as simple or as sophisticated as you make it.

Company Profile

HansaWorld is a leading software house providing a full suite of Enterprise Resource Planning and Customer Relationship Management products that delivers the flexibility required by today's businesses.

The group employs more than 300 staff with a strong network of subsidiary companies and distribution partners on all continents. This network enables us to offer international implementation in over 30 languages with country specific localizations. The products are easy to use and available on all smartphones, tablets and desktops including Mac, iPhone and iPad.

HansaWorld continually invests in Research and Development to provide innovative and future proof products to our customers. As recognized innovators for over 25 years, HansaWorld shows continued technological leadership in the international business software industry.

More than 550,000 companies trust us with their business critical information.

Product Strategy

Standard ERP's advanced and successful user interface was first developed for Apple Macintosh in 1988. In 1994, when the program was ported to Windows, it had already been proved by thousands of users. HansaWorld's experience with international sales and modern technology puts it in the perfect position to meet the challenges of the next decade.

HansaWorld provides a wide range of technologies for e-business including internal and external email, several webshop solutions and full clients for all major tablets. In addition, HansaWorld can help to build a corporate portal. Standard ERP is developed using C++ as its programming language, and proprietary technology for database design and for network communication. This allows HansaWorld to have the same products available for several different operating systems, each version optimized for maximum performance.

Currently Standard ERP is available for Windows including Windows CE devices up to Windows 8 tablets, Mac OS X, all iOS devices (iPod Touch through to iPad), Linux and AIX, all browsers, and Google Android.

Windows XP, Windows CE and Windows 8 are registered trademarks of Microsoft Corporation. Apple Macintosh, Mac OS and OS X, iOS, iPod Touch and iPad are registered trademarks of Apple Computer Inc. AIX is a registered trademark of IBM Corporation. Google Android is a registered trademark of Google Inc. Copyright HansaWorld Ltd.
