

BrightPay Integration

BrightPay is a payroll solution widely used by businesses across the UK and Ireland.

The main benefit of using the integration with BrightPay is the ability to create a Nominal Ledger transaction in Standard ERP by importing the Generic Export Journal from BrightPay.

The integration will be available from Standard ERP Version 2022-02-02.

Setup in Standard ERP

- In **System Module > Company Info Setting > VAT Law**, ensure the setting is set to Ireland or Default (United Kingdom).

How BrightPay works with Standard ERP

- Create a **Generic Payroll Journal** from BrightPay. For more information, please refer to: <https://www.brightpay.co.uk/docs/20-21/payroll-journals/creating-a-generic-payroll-journal/>
- The file needs to be saved with ***.csv extension**.
- Log in to Standard ERP and go to **Human Resources Management Module**.
- In **Human Resources Management Module**, go to **Routines > Import**.
- Click on BrightPay.
- Select the file extracted from BrightPay.
- Click on Open.
- Standard ERP creates a Nominal Ledger transaction. The transaction can be found in the **Transactions Register** of the **Nominal Ledger Module**.
